

# HomePage Code

The screenshot shows a VS Code editor window with the file explorer on the left and the code editor in the center. The file explorer shows a project structure with folders like 'src', 'components', and 'pages'. The 'page.tsx' file is selected in the 'pages' folder. The code editor displays the following code:

```
15 import dynamic from "next/dynamic";
16 import { sanityFetch } from "@sanity/lib/client";
17 import { twelvecars } from "@sanity/lib/queries";
18
19 const Header = dynamic(() => import("../components/navbar"));
20 const Footer = dynamic(() => import("../components/footer"));
21
22 type Car = {
23   _id: string;
24   id: number;
25   name: string;
26   type: string;
27   fuel_capacity: string;
28   transmission: string;
29   seating_capacity: string;
30   price_per_day: number;
31   tags: string;
32   image: string;
33 };
34
35 export default async function Home() {
36   const cars: Car[] = await sanityFetch({ query: twelvecars });
37
38   return (
39     <div>
40       <Header />
41       <div className="" style={{ background: "#F6F7F9" }}>
42
43         <div className="hero-section" style={{ background: "#F6F7F9" }}>
44           <div className="relative md:flex md:mx-16">
45             <div className="hero-image">
46               <img
47                 src={card2}
48                 alt="The Best Platform for Car Rental"
49               />
50             </div>
51           </div>
52         </div>
53       </div>
54     </div>
55   );
56 }
```

The code defines a TypeScript interface for a car, fetches data from Sanity, and renders a hero section with a car image. The file explorer on the left shows the project structure, including folders like 'src', 'components', and 'pages'. The 'page.tsx' file is selected in the 'pages' folder. The status bar at the bottom shows the file is 'page.tsx' in the 'pages' folder, with a line number of 41, column 58, and 2 spaces. The editor is using the 'TypeScript' language and 'Prettier' formatter. The system tray at the bottom shows the time as 11:00 PM on 1/21/2025.
